Unleash peak productivity

Always on guard with HP Wolf Security[1]

Customisable solutions built to last

Unleash peak productivity

Now you can accelerate your print and scan workflows to maximise business productivity, with the HP Color LaserJet Managed MFP E785 series.

The result: more time for your core business and less time waiting for prints and scans.

POWERED BY SYSTEM ON A CHIP

With 7x more computing power[2] than previous models, the HP Color LaserJet Managed MFP E785 series is a powerhouse of speed with all print, copy, scan, security and other display subsystems integrated into a single chip.

FAST SLEEP TO FIRST COPY OUTPUT TIME (FCOT)

Compared to previous generation printers, the HP Color LaserJet Managed MFP E785 series features accelerated FCOT time so your printer wakes up quickly from sleep mode as soon as you use the touchscreen to deliver your prints or copies faster.

UP TO 28 PPM PRINTING SPEED[3]

Meet tight deadlines, save time on everyday printing tasks and be ready for unexpected multi-print requests. HP delivers the speed needed for maximum productivity.

PROTECT YOUR INVESTMENT AND MAINTAIN PRODUCTIVITY

Stay productive and ensure you always have the latest optimised features across your fleet for years to come with upgradeable HP FutureSmart firmware. Get consistent, intuitive user controls across devices, seamlessly incorporate paper and digital content to improve workflows, and easily install updates on your schedule.

8-INCH COLOUR TOUCHSCREEN DISPLAY

With the 8-inch colour touchscreen display, easily enable workflows across your fleet with a consistent experience and intuitive tablet-like icons that IT admins and end-users can recognise – so finishing tasks feels familiar fleet-wide.

Always on guard with HP Wolf Security[1]

HP Managed MFPs are the world's most secure printing devices[4] in the industry. They're always on the lookout, continually stopping threats while adapting to new ones. Only HP printers can automatically self-heal from attacks, so IT doesn't need to intervene. For peace of mind, HP Wolf Enterprise Security is included with every HP Color LaserJet Managed MFP E785 series device so you can feel protected whether you are collaborating on the premises or via the cloud.

Always-on protection

- HP Sure Start checks the BIOS/boot code at startup to validate the integrity of the BIOS code

- Memory Shield™ active system monitoring with expanded memory protection from malware injection attacks

- HP Connection Inspector inspects outgoing network connections to stop suspicious requests such as malware

- Whitelisting checks firmware during startup to help ensure it's good, authentic code – digitally signed by HP

- Receive instant notification of security issues via leading Security Information and Event Management (SIEM) tools such as Splunk, ArcSight, McAfee and SIEMonster

Always-on detection

- Protects with zero-day detection of threats

- Prevents malware attacks by ensuring that the execution flow on the device cannot be altered

- Monitors the execution flow for potential zero-day attacks with Control Flow Integrity

- Self-heals and reboots to a safe state of operation when malware is detected

- Detects attacks in runtime memory via an integrated chip that provides hardware-level protection

ENTERPRISE-WIDE SECURITY

HP Security Manager[16] offers an effective, policy-based approach to help secure HP printing and imaging devices. Easily set security configuration policies and automatically validate settings for every HP printer and MFP in your fleet.

Customisable solutions built to last

Tailored on-device and cloud-connected solutions to help optimise your workflows with the flexibility to support your workforce today and evolve to meet your demands for tomorrow.

DEPLOY THIRD-PARTY SOLUTIONS

Give your team what they need to succeed by easily deploying and integrating HP and third-party solutions with the HP Open Extensibility Platform. Support card readers and the ability for users to walk up, swipe their badge and use personalised settings to print from their own queue.

MATCH YOUR COLOUR OUTPUT NEEDS[7]

Make colour management simple and seamless with our HP Custom Color Manager.[7] Match colour output of any document/device combination by simply pulling colour profiles from the cloud. Leverage high-quality colour profiles without the hassle of expensive colour-matching systems.

CUSTOMISE YOUR EXPERIENCE WITH WORKPATH APPS[18]

Make your day-to-day more productive using customised experiences with cloud-connected HP Workpath apps[18] that let you access personalised content and integrate paper and digital workflows.

CUSTOM DESIGNS TO SUIT YOUR SPACE

Unleash your creativity and match any office décor with modern designs and the option of five customisable colour panels.[6]

Designed for impact

Today's workplace is more open and fluid, helping foster collaboration and communication among team members. Your HP printer can play a key role.

Make a visual statement at your workplace with six distinct, easy-to-install colour panels[6] to suit your office décor, represent your brand and energise your space.
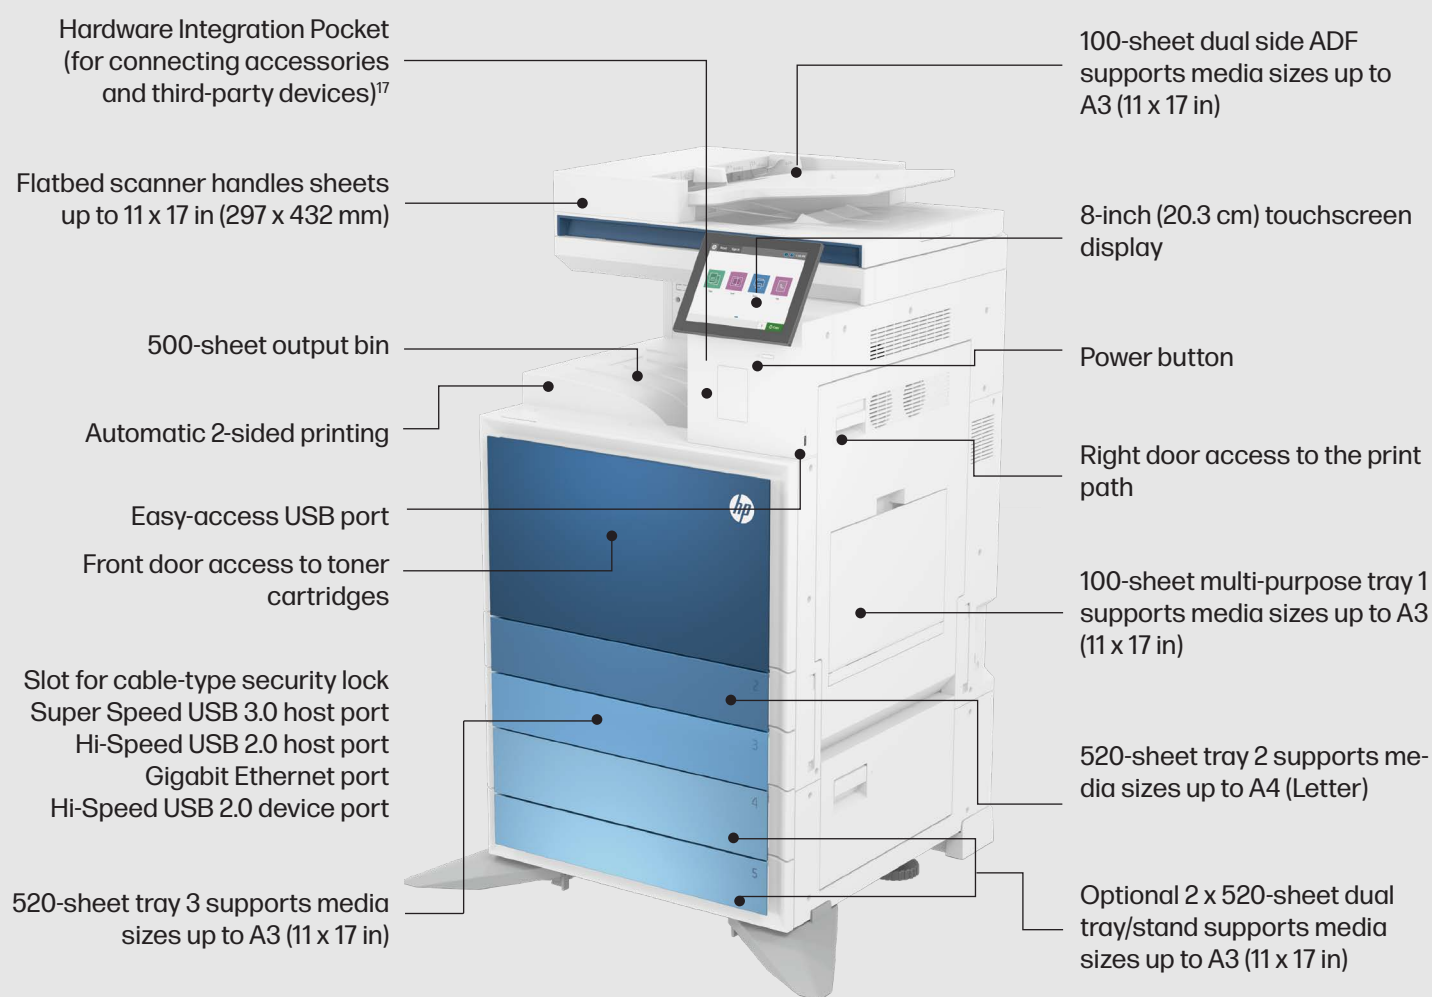

Better printing for a better planet

Save resources with our energy-efficient printing that meets EPEAT Gold, Blue Angel and Energy Star standards,[8] supporting HP's goal for carbon neutrality and a fully sustainable economy.

- SUPPORT ZERO DEFORESTATION[9] – The fibre-based packaging for this product, including the outer box and interior fibre-based cushions, is 100% sustainably sourced, meaning it's made from recycled or certified content.

- DESIGNED TO ELIMINATE WASTE[10] – Our devices are made with the planet in mind. The energy-efficient printing and toner cartridges have more than 59%[11] recycled cartridge content[12] and 90% recycled packaging content. Printing that puts the planet first.

- BREAKTHROUGH TONER TECHNOLOGY – With formulas that meet current indoor air quality standards, our ultra-low melt toner is efficient for both printing and the planet.[13]

- REDUCE PAPER WASTE – By using HP Pull/Pin printing solutions and duplex print as the default[14] setting, our devices conserve paper wherever possible.

- EXTEND PRODUCT LIFE – Our durable modular designs and HP SDS predictive diagnostics help keep our products up and running longer.

- EASY RECYCLING WITH HP PLANET PARTNERS[15] – Our sustainable efforts don't stop when you stop printing. With HP Planet Partners, we provide a convenient way to recycle HP IT hardware and supplies after use.

Technical specifications footnotes

1. Approximate average yield based on ISO/IEC 19752. Actual yield varies considerably based on content of printed pages and other factors. For details, see http://www.hp.com/go/learnaboutsupplies.
2. Measured using ISO/IEC 24734; excludes first set of test documents. For more information, see http://www.hp.com/go/printerclaims. Exact speed varies depending on the system configuration, software application, driver and document complexity.
3. Measured using ISO/IEC 17629. For more information, see http://www.hp.com/go/printerclaims. Exact speed varies depending on the system configuration, software application, driver and document complexity.
4. Power requirements are based on the country/region where the printer is sold. Do not convert operating voltages. This will damage the printer and void the product warranty. Energy Star value typically based on measurement of 115 V device and 230 V for Blue Angel.
5. Typical Electricity Consumption (TEC) rating represents the typical electricity consumed by a product during one week, measured in kilowatt hours (kWh).
6. Scan speeds measured from ADF. Actual processing speeds may vary depending on scan resolution, network conditions, computer performance and application software.
7. For scan software, we support: Windows (JPG, RAW(BMP)), PDF, TIFF, PNG, RTF) and Mac (JPG, JPG-2000, TIFF, PNG, PDF, Searchable PDF, RTF, TXT)
